Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 September 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. The art rejection of claims 9-14 is withdrawn in view of the amendment filed on 9/30/05.

Drawings

2. The drawings are objected to because Fig. 4, Box 402, "transmit" is mistyped as "transmit" in addition, "the data rate decision node" coupled to the equalizer, as recited in claims 11, 16 and 17 must be shown, or the feature canceled from the claim(s).
Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 10-11, 15-20 are objected to because of the following informalities:
please expand "C/I", recited in the claims. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 9-14, 19 and 20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 9 recites "the first associated coefficient corresponding to a first plurality of time slots, the second associated coefficient corresponding to a second plurality of time slots". However, the specification as filed, does not provide support for such limitations as claimed. The specification teaches, at best, "each set of coefficients corresponds to one time slot" see for instance, page 31, lines 1-2.

Claim 13 recites "a first set associated coefficients during a first plurality of time slots, and with a second set of associated coefficient during a second plurality of time slots". However, the specification as filed, does not provide support for such limitations

as claimed. The specification teaches, at best, "each set of coefficients corresponds to one time slot" see for instance, page 31, lines 1-2.

Claims 10-12, 14, 19, and 20 are likewise rejected because of their dependency a rejected base claim.

Allowable Subject Matter

6. Claims 15-18 are allowed. However, the claims must be amended, if required, to overcome any objection set forth above.

Response to Arguments

7. Applicant's arguments filed 9/30/05 have been fully considered but they are not persuasive. It is asserted that the specification at page 12, lines 16-20, page 13, lines 3-9 and 17-21; page 21, lines 11-30; page 27, lines 15-29; page 31, lines 22-28 and fig. 3A, 3B, 4 and 7, provides support for the added limitations in claims 9 and 13. However, such sections of the specification as noted by applicant do not provide support for the amendment made to the claims. As noted previously, the specification teaches, at best, at page 41, lines 1-2 that "each set of coefficients corresponds to one time slot".

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
